

THE ARCTIC - GREENLAND AND WILD LABRADOR | OCEAN ENDEAVOUR

INTRODUCTION

Step in the footsteps of Leif Erikson from Greenland to Newfoundland via coastal Labrador. This 15-day expedition voyage will sweep you south over the Arctic Circle aboard the spacious and comfortable Ocean Endeavour. We will cross the Davis Strait, visiting the Torngat Mountains National Park before sailing down the rugged Labrador coast. Visit North America's only authentic Norse site before cruising the coast of northeast Newfoundland. Look out for Northern Lights across the Arctic Circle; visit Greenland's colourful capital of Nuuk; hike among fjords on the look our for polar and black bears and enjoy the warm welcome of Inuit culture.

Mandatory charter flight information and cost:
2025 DEPARTURE: Northbound Charter Flight: Toronto, ON, Canada to Kangerlussuaq, Greenland. Early-morning departure. Price USD\$1,450 per person

THE ARCTIC - GREENLAND AND WILD LABRADOR | OCEAN ENDEAVOUR

DAY 1: Toronto - Kangerlussuaq

Please make your own way to Toronto Airport for the (optional) early morning charter flight to Kangerlussuaq. Please note: Charter flight is not included in cruise fare and additional cost applies. Kangerlussuaq is a former US Air Force base and Greenland’s primary flight hub. Here we will be bused along Greenland’s longest road—less than twenty kilometres—to the port. Zodiacs will be waiting to transfer us to the Ocean Endeavour. Sondre Stromfjord is one of the longest fjords in the world and boasts 168 kilometres of superb scenery. You will begin your adventure by sailing down this dramatic fjord, crossing the Arctic Circle as you go.

DAY 2: Kangerlussuatsiaq Fjord

West Greenland’s complex coastal waterways include glaciers, islands and fjords against a towering mountain backdrop. The waters are relatively warm here, due to the West Greenland Current and the sub-Arctic location. We’ll explore this sublime landscape by ship and by Zodiac.

DAY 3: Nuuk

Welcome to Nuuk, the capital of Greenland and one of the world’s northernmost capitals. The old harbour region of town includes many buildings dating from the Danish colonial days. The modern downtown core includes shopping, cafes, and restaurants—as well as public institutions with a European flair. The Greenland National Museum is one of Nuuk’s many outstanding features; the world-famous Qilakitsoq mummies are housed here. The museum’s exhibits also offer in-depth information about colonial, Norse, and Inuit presence in Greenland—a must-see.

THE ARCTIC - GREENLAND AND WILD LABRADOR | OCEAN ENDEAVOUR

DAY 4: At Sea – Davis Strait

Sailing ever-westward, like the Vikings, we cross the Davis Strait—the mouth of the Northwest Passage. Narrower and shallower than Baffin Bay to the north, Davis Strait is a haven for marine mammals and seabirds. We'll be on the watch! Our presentation schedule will be a flurry of learning opportunities. We'll immerse ourselves in the archaeology, history, and culture of Greenland, Nunavik, Nunatsiavut, Labrador, and Newfoundland.

DAY 5: Torngat Mountains National Park - Day 5 to 7

Canada's highest peaks east of the Rockies are found in Torngat Mountains National Park. Here, the Inuit of Nunatsiavut will be our guides in their spiritual homeland. Polar bears, caribou, falcons, and eagles are among the species we hope to spot on land. We'll also be on the lookout for marine mammals! We'll spend our time on guided hikes, searching for wildlife, visiting archaeological sites, and Zodiac cruising.

DAY 8: Hebron

This haunting site preserves a Moravian Mission station dating from the 1830s. The mission was abandoned in 1959, forcing the relocation of the Inuit who resided there. In 2005, Newfoundland & Labrador issued an apology to people affected by the relocations. Former Hebron residents and their kin continue to visit the site, and to hunt and fish nearby. With their help, some of Hebron's buildings are now being repurposed as a cultural interpretation centre.

DAY 9: Nain

The administrative capital of Nunatsiavut, Nain is the northernmost community in Labrador. A busy harbour in a gorgeous location is the centre of this bustling village. We'll visit the beautiful Moravian Church and the Nunatsiavut Building.

DAY 10: The Labrador Coast - Day 10 to 12

Labrador’s coast in this region is much more varied than you might expect. Here we find coastal barrens, high subarctic tundra, high boreal forest, mid-boreal forest, and string bog—as well as the Akami-Uapishk^U-KakKasuak-Mealy Mountains National Park Reserve.

DAY 13: L’Anse aux Meadows

L’Anse aux Meadows is the only authenticated Norse settlement in North America—a UNESCO World Heritage Site and National Historic site. The archaeological remains found here in 1960 date to approximately 1000 AD. Amazingly, the location of the ruins was first established by a close reading of the Viking sagas. Today, a superb interpretive centre and reconstructions of the several Norse-style sod buildings make L’Anse aux Meadows a must-see for any visitor to Newfoundland.

DAY 14: Eastern Newfoundland

The east coast of Newfoundland is known for the dozens of picturesque villages that dot its rocky shores. We’ll find harbour in one of these unique communities. We look forward to a characteristically warm Newfoundland welcome upon our arrival. Photographers will have their work cut out for them capturing the special charm of classic island communities and picturesque coastlines.

DAY 15: Disembarkation in St John's

Sailing into the port of St. John’s has to be experienced to be believed. Signal Hill keeps watch as we take on our pilot and enter the world-famous Narrows. The charming houses of The Battery are always a hit with shutterbugs. The bustling capital city of Newfoundland & Labrador makes a spectacular backdrop. High on the hill sits The Rooms, a cultural museum dedicated to more than five hundred years of history surrounding St. John’s harbour.

SUSTAINABILITY

Being environmentally accountable is a crucial part of our organisation. Chimu is currently striving towards using less paper, taking several initiatives to do so and tracking our progress along the way. Our goal: A paperless organisation. For this reason, all information given to you will be sent electronically. We encourage those who choose to travel with us to support our aspirations and actions and ask that you reconsider printing out documentation. To view these documents, you can download them to your iPad or portable computer before and during your trip.

Chimu is passionate and dedicated to sustainability measures and understands the crucial part sustainability plays within the tourism industry.

We use local guides and office staff to both maximise local employment opportunities and minimise carbon footprint. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you're visiting. Our guides are all highly qualified (most with university degrees) or equip with many years of experience and are paid above the standard wage. Whether it be our knowledgeable local guides, locally produced meals or the transport on tour, we do not use imported goods when local products are available. We aim to minimise our impact on the environment and give as much back as possible to the communities we work in.

The Ocean Endeavour in the Arctic works closely with the First Nations communities by direct employment and is a part of a Discovery Fund. Every customer contributes directly to the Fund when they purchase a trip to the Arctic. The Fund covers issues like habitat enhancement, youth outreach, community support and charity projects. The Scientist-in-residence program offers spacem time and resources aboard The Ocean Endeavour for practicing scientists and researchers. Passenger contributions to the citizen science program is also facilitated onboard. While visiting the many national parks, heritage sites, museums and landmarks our travellers are encouraged to explore whilst remaining culturally aware and sensitive. We further encourage you to buy appropriate souvenirs and discourage the buying of anything wrongfully made or taken from the environment i.e. shells and endangered species products. Information on how you can be environmentally conscious, and travel responsibly will be made available in our Travellers Guides and provided during your travels by guides and staff.
