

GREENLAND - DISKO BAY & INUIT VILLAGES | LE BOREAL

INTRODUCTION

Take advantage of this itinerary to travel to Greenland on an 8-day excursion cruise. You will go out from Kangerlussuaq on board Le Boreal for an extraordinary adventure across the most breathtaking Arctic scenery. You will arrive to Sisimiut, Greenland's second largest city, a colourful port nestled amid undulating hills, after first calling at the steep cliffs where numerous birds nest in Evighedsfjorden, the fjord of Eternity. You will be introduced to the realm of ice on this voyage along Greenland's northwestern coast. you will traverse Disko Bay to get to the Paul-Emile Victor research station and the margins of the Eki Glacier, an icy behemoth with crystalline reflections.

Next, the spectacular icebergs of Disko Bay and the colourful communities of Uummannaq, which are surrounded by mountains and basalt rocks, will greet you. These icebergs are some of the biggest in the Northern Hemisphere. This is the perfect chance to interact with the community and discover Inuit culture in Greenland. You will have plenty of chances during your cruise and zodiac excursions to observe the diverse and plentiful marine life, including seals, whales, and several seabird species.

GREENLAND - DISKO BAY & INUIT VILLAGES | LE BOREAL

DAY 1: Fly from Paris to Kangerlussuaq & Embark

Fly from Paris to Kangerlussuaq on an included charter flight, for embarkation in the afternoon and departure in the early evening. From 1941 to 1992, the town of Kangerlussuaq in Greenland was home to an American military base. Nowadays, thanks to its international airport, it has become a transit point for travellers seeking adventure in the Far North. Located to the north of the Arctic Circle, this town is the starting point of magnificent discoveries surrounded by unspoiled nature. Indeed, just a few dozen kilometres from there it is possible to get close to the Greenland ice sheet, the largest body of ice in the Northern Hemisphere. From Kangerlussuaq, admire also the superb landscapes of tundra in autumnal colours, where Arctic hares, musk oxen, Arctic foxes, reindeer, falcons and eagles live.

DAY 2: Sisimiut

During your cruise, we invite you to discover Sisimiut, founded in 1756 and the second largest town in Greenland. This small town is typical of Greenland, boasting bewitching panoramas: here and there, colourful stilt houses dot the undulating landscape, and the small fishing port stands as the gateway to an icy realm. As for the town centre, it is home to a number of historic buildings, a small church and a museum which retraces the history of the Inuit people, as well as many craft shops. When your ship drops anchor here, you will set out to meet the locals in a typically arctic atmosphere.

DAY 3: Qeqertarsuaq

On the southern coast of Disko Island, Qeqertarsuaq is one of just two small villages on this island the size of Corsica. Its isolation makes it an observation post popular among naturalists since the beginning of polar exploration and the set-up, in 1906, of the Arctic Centre research facility. During a zodiac cruise you will have the chance to explore the natural wonders of Greenland, meet its wildlife such as the humpback whale and contemplate the basaltic organ landscapes that offer pure moments of wonder for you. In the heart of this spectacular and fragile nature, enjoy the breath-taking views of the grandiose and varied landscapes of Disko Island and Disko Bay.

GREENLAND - DISKO BAY & INUIT VILLAGES | LE BOREAL

DAY 4: Eqi Glacier

'The most beautiful place in the Arctic' is how Paul-Émile Victor described Greenland, a land of great icebergs and of towering ice formations calved by the giant glaciers of the polar ice cap. The Eqi Glacier is one of the region's most impressive sights. Here, the silence is broken only by the roaring and cracking of the ice. It is impossible to know if one is shivering from cold or from the sheer thrill of being here... Imagine the vast outline of a glacier, its translucent crystals glowing with an ice-blue fire in the sunlight. Paul-Emile Victor's shelter cannot be overlooked; it was from here that the French Polar Expeditions' anthropological and geographic explorations set off in the 1950s.

DAY 5: Akulleq & Uummannaq

In the curve of Uummannaq Bay, opposite a narrow passage between two islands, you will discover the moonscape of the small desert island of Akulleq. The ochre yellow and orange of this mineral site look ablaze under the sunshine of the polar summer. From the island's summit you will be able to contemplate a panoramic view of the bay's magical landscape and its huge icebergs with surprising shapes. The "heart-shaped" rock overlooking it is what inspired the name of the island and village of Uummannaq, where the locals will welcome you with their incredible sense of hospitality and humour, essential to their survival in these northern lands. Seven Inuit villages also dot this territory where people still get around on dog sleighs or in kayaks. Mingling tradition, respect for nature and modernity, the authentic and lively atmosphere that reigns nowadays in this region inhabited since the 15th century will win over visitors, as will the magnificent landscapes that compose it, a mix of peninsulas and of peaks standing more than 2,000 metres tall.

DAY 6: Disko Bay

To the east of Baffin Bay, discover Disko Bay, scattered with countless icebergs produced by the Ilulissat Icefjord, a UNESCO World Heritage Site. From your ship, admire the majestic ballet of these ice giants as they slowly drift across the dark waters. This site is a natural marvel of Greenland, and is also renowned as an observation point for the region’s many humpback whales. The encounters with wild fauna and stunning landscapes in the heart of this spectacular and fragile nature will be pure moments of wonder for you.

DAY 7: Evighedsfjorden

Your ship glides slowly along the water towards the west coast of Greenland, to enter Evighedsfjorden, just a few kilometres south of Kangerlussuaq. Evighedsfjorden means “the fjord of Eternity”, and for good reason: just when you think you’ve reached the end of this stretch of sea measuring over 100 kilometres in length, it seems to go on forever, as though to bring even more pleasure to those sailing in it. The spectacular scenery ranges from glaciers to tundra with an abundant flora, and jagged cliffs where numerous bird species have taken up residence. Take the time to observe the white-tailed eagles and the colonies of seagulls and black-legged kittiwakes flying overhead in the area.

DAY 8: Disembark in Kangerlussuaq & fly to Paris

Arrive early and disembark in Kangerlussuaq in the morning, then take an included charter flight to Paris. From 1941 to 1992, the town of Kangerlussuaq in Greenland was home to an American military base. Nowadays, thanks to its international airport, it has become a transit point for travellers seeking adventure in the Far North. SUSTAINABILITY

Being environmentally accountable is a crucial part of our organisation. Chimu is currently striving towards using less paper, taking several initiatives to do so and tracking our progress along the way. Our goal: A paperless organisation. For this reason, all information given to you will be sent electronically. We encourage those who choose to travel with us to support our aspirations and actions and ask that you reconsider printing out documentation. To view these documents, you can download them to your iPad or portable computer before and during your trip.

Chimu is passionate and dedicated to sustainability measures and understands the

crucial part sustainability plays within the tourism industry.

We use local guides and office staff to both maximise local employment opportunities and minimise carbon footprint. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you're visiting. Our guides are all highly qualified (most with university degrees) or equip with many years of experience and are paid above the standard wage. Whether it be our knowledgeable local guides, locally produced meals or the transport on tour, we do not use imported goods when local products are available. We aim to minimise our impact on the environment and give as much back as possible to the communities we work in.

While visiting the many national parks, heritage sites, museums and landmarks our travellers are encouraged to explore whilst remaining culturally aware and sensitive. We further encourage you to buy appropriate souvenirs and discourage the buying of anything wrongfully made or taken from the environment i.e. shells and endangered species products. Information on how you can be environmentally conscious, and travel responsibly will be made available in our Travellers Guides and provided during your travels by guides and staff.
